

Pediatric Specialists of Virginia

January 06, 2023

Dear Patient or Parent/Guardian:

Pediatric Specialists of Virginia (PSV) has been fortunate to provide care for you or your family and we want to let you know about some upcoming changes to our organization. In early February 2023, some of our subspecialty services will realign to one or both of our parent organizations – Children's National Hospital and Inova Children's – while others will remain in PSV. Since you have visited PSV in the last two years, we want to update you as this may affect you and how you access care.

You have seen at least one of our providers in the past two years and the PSV Transition Table (see below) shows any changes to clinic locations and phone numbers after the effective date of **February 6, 2023**.

If you already have appointments at PSV on or after Feb. 6th with a provider leaving PSV, those appointments will automatically transition to Children's National or Inova Children's, as appropriate. Additionally, your medical record will be available for your care team at their new location. No action is required on your part to transfer your medical record or your appointment(s). Just be sure to go to your provider's new address (if any) on or after Feb 6th. You may also continue to communicate with your PSV care team as normal through Feb 5th. Please see the next page for care team contact information at each organization.

Thank you in advance for your understanding during this time of transition. Our goal is to make the transition of care smooth and seamless for you and your family. We look forward to continuing to partner with Children's National and Inova Children's to provide the best pediatric specialty care possible to our community. For more information and updates, please visit: www.PSVCare.org.

Sincerely,

A handwritten signature in black ink that reads "L Blakemore".

Laurel Blakemore, MD
Chief Executive Officer
Pediatric Specialists of Virginia
