

PSV's Philanthropic Goals

Our mission is to provide superb pediatric specialty care to children of Northern Virginia, including those whose families are experiencing hardship. Donations to PSV's Philanthropy Fund are allocated for special nursing education, important research projects, and programs to better inform PSV patients and families about illnesses.

How does your sponsorship help?

The 5K and Family Health Fair is PSV's single fundraising event, and proceeds are used to support our philanthropic mission. Funds have already supported many projects: trial devices for better glucose monitoring in diabetes patients, children's surgery prep books to help alleviate anxieties that may occur before an operation, and special events to educate patients and parents about new diagnoses that they are facing.

Pediatric Specialists of Virginia

Pediatric Specialists of Virginia (PSV) was created by Children's National and Inova, as a unique, Northern Virginia-based, physician-led group practice dedicated exclusively to caring for children.

PSV is a charitable organization registered with the Internal Revenue Service under Section 501(c)(3). All donations made to PSV are considered tax-exempt contributions.

Sponsors and PSV Promote Health

Your sponsorship support of the **Race To Make It All Better** 5K and Family Health Fair makes this event possible. It also links your name and logo to families throughout Northern Virginia who care about children, health, and well-being. The PSV brand is positively associated with excellence and compassionate care. Your name and logo will be included in our promotions before, during, and after the event as outlined in the accompanying chart. For example, we mail event promotions to 70,000 households. Our social media presence is growing, and will feature event sponsors. So, not only are you supporting a great cause, but also enhancing your brand image and reputation.

Parent Testimonial

“It is impossible to understate the value of excellent, accessible, and compassionate medical care when your child suffers from a chronic illness. Thankfully, we found this in the doctors and staff in the pediatric gastroenterology unit at PSV. My teenage daughter is managing her illness, even thriving, and as her mom, nothing gives me greater comfort. PSV truly makes it all better!”

– Kimberly Lohman Clapp
